Announcement of 60-Day Settlement Period Ending April 23, 2007

By this Public Notice, the Video Division of the Media Bureau provides Attachment A as a list of all proposals received during the July–August, 2000 filing window that remain mutually exclusive with other proposals submitted in the filing window.¹ The Video Division has evaluated the remaining mutually exclusive proposals from the July–August, 2000 filing window and determined that proposals listed in Attachment A remain mutually exclusive² and are subject to the Commission’s competitive bidding procedures.³

¹ The initial filing window for this group of short-form applications (FCC Forms 175) began on July 31 and ended on August 31, 2000. See Notice and Filing Requirements Regarding July 31 through August 4, 2000 Limited Low Power Television/Television Translator/Class A Television Auction Filing Window, Report No. AUC-00-81-A (Auction No. 81), *Public Notice*, 15 FCC Rcd 10854 (MMB/WTB 2000); see also Limited Low Power Television/Television Translator/Class A Television Auction Filing Window Partially Extended to August 31, 2000, *Public Notice*, 15 FCC Rcd 13808 (MMB/WTB 2000). 60-Day Settlement Period Ending April 23, 2007: By this Public Notice, the Video Division announces a 60-day period beginning with the release of this Public Notice and ending April 23, 2007, for parties with proposals in the mutually exclusive (MX) groups listed in Attachment A to enter into settlement agreements or otherwise resolve their mutual exclusivities by means of engineering solutions.⁴ The parties must submit the agreements and affidavits required by Section 73.3525 and/or any engineering submission by the deadline on April 23, 2007. After approval of a settlement and/or engineering submission, the proposed permittee(s) must submit an accurate and complete FCC Form 346 by the deadline subsequently specified by staff.

Applicants must ensure that their settlement agreements comply with the provisions of Section 311(c) of the Communications Act of 1934, as amended,⁵ and the pertinent requirements of Section of 73.3525 of the Commission's Rules, including the reimbursement restrictions.⁶ For example:

1. Parties must submit a copy of their settlement agreement and any ancillary agreement(s).
2. Parties must submit a joint request for approval of such agreement.
3. Parties must submit an affidavit of each party to the agreement setting forth:
 - (a) The reasons why it is considered that such agreement is in the public interest;
 - (b) A statement that its application was not filed for the purpose of reaching or carrying out such agreement;
 - (c) A certification that neither the applicant nor its principals has received any money or other consideration in excess of the legitimate and prudent expenses of the applicant;
 - (d) The exact nature and amount of any consideration paid or promised;
 - (e) An itemized accounting of the expenses for which it seeks reimbursement; and
 - (f) The terms of any oral agreement relating to the dismissal or withdrawal of its application.

Applicants that unilaterally dismiss their application or file an engineering amendment that removes the mutual exclusivity to their application without having entered a settlement agreement with another applicant must nevertheless submit an affidavit as to whether or not consideration has been promised to or received by such applicant in connection with their dismissal or engineering amendment.

Anti-Collusion Rule. The prohibition of collusion set forth in 47 C.F.R. § 1.2105(c) became effective upon the short-form (FCC Form 175) filing deadline on August 31, 2000.⁷ However, the Commission's Rules provide for a limited opportunity to settle, or otherwise resolve mutual exclusivities by

means of engineering solutions, following the filing of the FCC Form 175 applications.⁸ Specifically, parties in MX groups listed in Attachment A may discuss possible settlement agreements or technical solutions with other parties in their group during the limited period which commences with the release of this public notice and ends on April 23, 2007. Once the settlement period ends, the anti-collusion restrictions once again take effect and applies to all “applicants” within the meaning of Section 1.2105 of the Commission’s rules.⁹ If any competing mutually exclusive proposals remain after the Commission has received and reviewed all proposed settlements, the Commission will resolve such mutual exclusivities through auction.

When and Where to File. Settlement agreements that are entered into in connection with this settlement period must be filed **prior to 6:00 pm Eastern Time (ET) on April 23, 2007**. Each party to the settlement must file copies of all required documents, including agreements, requests, and affidavits (as discussed above), as an attachment to its FCC Form 346 engineering submission via the CDBS electronic filing system. Instructions for use of the electronic filing system are available in the CDBS User’s Guide, which can be accessed from the electronic filing web site at:

<http://www.fcc.gov/mb/cdbs.html>

Applicants should select the “Amendment to pending application” option and enter the applicant’s appropriate engineering submission file number from attachment A. For assistance with electronic filing, call the Media Bureau Help Desk at (202) 418-26MB (418-2662).

Similarly, applicants proposing engineering amendments in connection with this settlement period must do so by amending the technical portion of their FCC Form 346 engineering submission via the CDBS electronic filing system. Engineering amendments also must be submitted **prior to 6:00 p.m. on April 23, 2007. Late-filed or paper-filed settlement agreements and engineering amendments will not be accepted.** Settlement agreements and engineering amendments may be filed any time beginning 9:00 a.m. ET on February 22, 2007, until 6:00 p.m. ET on April 23, 2007. Applicants are strongly encouraged to file their settlement agreements and engineering amendments early and are responsible for allowing adequate time for filing.

The staff will withhold further action on the mutually exclusive proposals listed in Attachment A pending submission of settlement agreements or engineering amendments to resolve mutual exclusivity.

Amendments to Short-Form Applications. Applicants are reminded that they remain responsible for maintaining the accuracy and completeness of information furnished in their short-form applications, including their attachments.¹⁰ Applicants must modify their short-form application by submitting a letter, briefly summarizing any changes, to the attention of Margaret Wiener, Chief, Auctions and Spectrum Access Division, Wireless Telecommunications Bureau.

Paperwork Reduction Act Approval: The FCC Form 346 was assigned control number 3060-0016 and was approved by the Office of Management and Budget (OMB) on May 25, 2006. Section 73.3525 of the Commission’s rules was assigned control number 3060-0213 and was approved by OMB on December 21, 2006.
